

## **Our Commitment to your Privacy**

*“Protecting your privacy and rights through our commitment to the General Data Protection Regulation”*

The General Data Protection Regulation (GDPR) will come into force in the UK on 25<sup>th</sup> May 2018 through a new Data Protection Act. We are committed to the principles of data security outlined in the GDPR and ensuring our compliance with our data protection obligations.

When the law become to an effect a number of changes will be required of any organisation or individual processing personal data (a data processor) on behalf of anther (the data controller).

Where a data processor carries out any processing on behalf of a data controller, the data controller will not comply with the GDPR unless there is a written agreement between the two parties that includes, as a minimum, the specified clauses.

In addition, a data controller is only permitted to use data processors that provide sufficient guarantees to implement appropriate technical and organisational measures in order to meet the requirements of the GDPR and protect the rights of the data subject

As our client of MN Support Services Limited, you may carry out processing activities on our behalf as part of your terms and condition with MN Support Services. We would therefore like to put in place a short additional agreement to ensure compliance with the GDPR. We would be grateful if you could return to us as soon as possible.
